

the Legacy

Do your customers have big plans for a greenhouse but a small yard? Now is the time to buy! BC Greenhouse Builders announces a sale on the popular Legacy greenhouse model! Would your customer like to place the Legacy greenhouse on a raised foundation? From now until November 20th, save over \$125 on our ***door drop kit** and we'll custom build the greenhouse to suit ANY foundation.

Conditions of Sale:

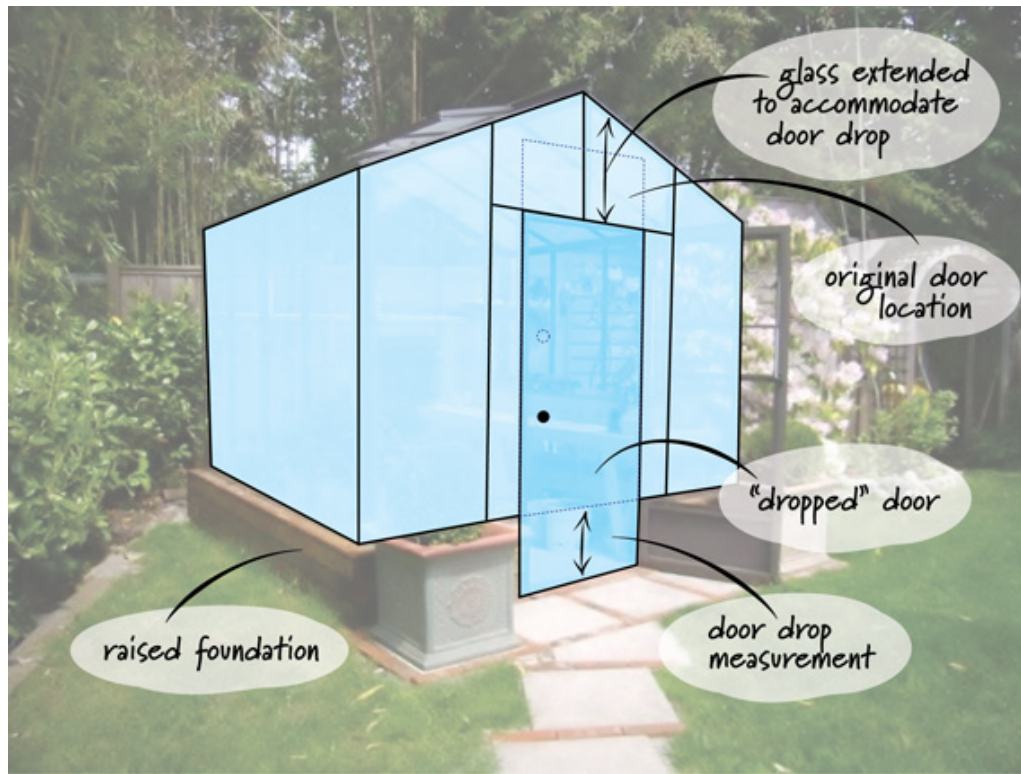

The \$125 value of the door drop is communicated as a line item deduction on the work order. This value cannot be transferred or offered in conjunction with another special.

All greenhouses **must be purchased** October 20th to November 20th to apply for the discounted savings.

BCG will not delay fabricating the greenhouse for shipping purposes and greenhouses will not be stored for seasonal reasons.

Web banners will be provided for promotional purposes. The promotion **must be advertised** to take advantage of savings.

These savings apply to the greenhouse and crating costs only and do not apply to accessories, shipping, greenhouse customizations or tax portions (if applicable) of an order.

What is a door drop?

A door drop is a custom modification that lowers the greenhouse door into the foundation (or allows the door to be flush with the ground). Prior to manufacturing the greenhouse, BC Greenhouse Builders will ask for the dimensions of the "drop" which is the total height of the foundation (which could be a concrete

footing, one row of 4x4's, or a custom rock wall for example). We will place an order for a custom piece of glass or polycarbonate to install above the door for a perfect fit!
